

MUSICAL BRIDGES

Bridging the gap between science and music

What We Do

We were founded in 2005 with a mission to serve the greater Nashville area with quality Neurologic Music Therapy services.

Our Approach

We combine a neuroscience and play based approach that incorporates instruments, visual supports, music books, games, and use PECS, sign language, and all forms of AAC communication. We work alongside with a client's treatment team members and family on all goals.

Who Would Benefit

We work with children and adults, primarily with diagnoses of Autism, Intellectual Disabilities, Learning Disabilities, & Communication Disorders.

Our Services

- Neurologic Music Therapy
- Traditional Music Therapy
- Adapted Music Lessons
- Group Classes
- Community Partnerships
- Camps
